Change name of tab from Explore to AI chat for clarity

Remove Robot Icon

Remove excess icons below for simple usability

Provide Chip as AI assistant in chat to provide consistency throughout website

UX Goals:
Useful – Helps RVers quickly find campgrounds that match real needs

Usable – Makes searching, filtering, and planning feel effortless

Desirable – Feels calm, inviting, and aligned with the outdoor lifestyle

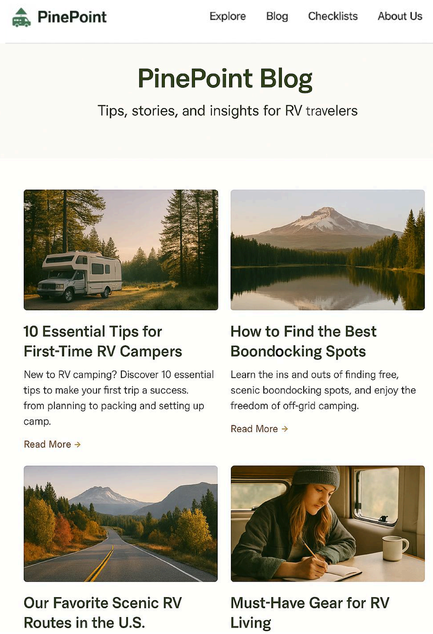
Learnable – Can be understood and used immediately without instruction

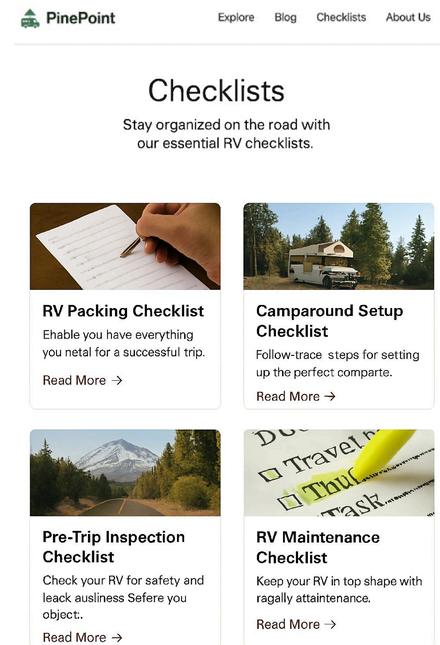
Memorable – Leaves users confident they can easily return and use it again

Accessible – Works for users of different abilities, devices, and environments

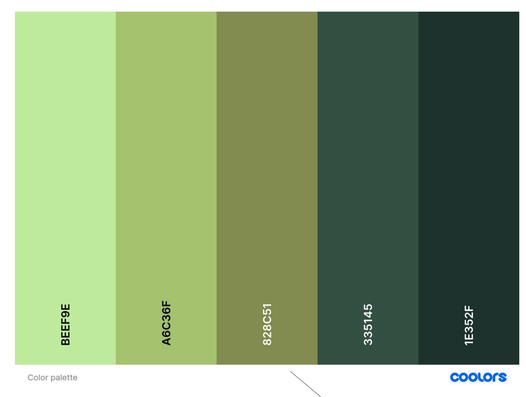
Credible – Builds trust through clear data, reviews, and transparent design

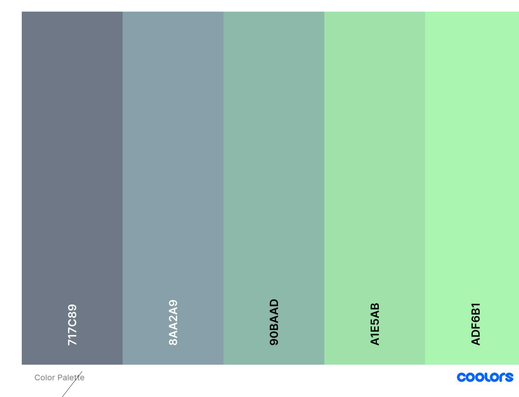
Add an About Us section for personalization. remove this from blog





Font:
Manrope
Why it's perfect for this site:
- Soft, rounded shapes → feels friendly + modern
- Still super readable for UI
- Less "tech startup" than Inter
- Pairs beautifully with nature / travel brands





The color scheme will consist of earthy tones to match RV environment including primarily shades of greens, browns, white, black, and nudes
